**FREE** public talks connecting our community to science and technology

## Tips for Analyzing and Resolving Conflict

by **Dr. James Honeycutt**

People argue daily in destructive ways, including temper tantrums and name-calling. Destructive arguing often results in punishment that can have lifelong consequences. In this lecture, Dr. James Honeycutt will discuss positive and negative tactics of arguing. There are specific tactics for having positive disputes that benefit all parties in the dispute, based on the idea of remembering simple acronyms. He will discuss what LOVE means in terms of the L, the O, the V, and the E in arguing with someone. A videotape will be shown of a couple having a heated argument, and Dr. Honeycutt will show examples of good and bad behaviors.

Dr. Honeycutt is an LSU Distinguished Professor, BASF Professor of Excellence, and LSU Rainmaker Senior Scholar Researcher.

### SATURDAY, OCTOBER 6<sup>TH</sup>

Doors open at **9:40 a.m.**; Talk begins at **10:00 a.m.**

### Nicholson Hall, LSU, Room 130
